

Endless Possibilities

- Training for your sales representatives, engineers, and executives with regard to techniques, sales, and marketing
- Small or large group courses for specific medical procedures
- Research and development of pre-clinical medical devices
- Education programs to bridge the gap between industry and healthcare professionals
- Summits to bring industry, healthcare professionals and politicians together

All Your Company's Needs

"I have worked with the UC Irvine lab team on many projects over the last five years. Their coordination, efficiency, and professionalism are impeccable. Collaborating with them allows us a confidential environment for testing, educational and consulting value for our internal team, and a convenient place to train our physician customers."

Victoria Daniels, KARL STORZ

We are proud to have done many different events with such prominent industry leaders....

training & education

How the UCI Surgical Education and Research Center Can Move Your Business Forward

This state-of-the-art laboratory has worked with the medical device industry for over 15 years to help companies successfully test and develop capital and disposable equipment, train material teams and physicians. Our resources include:

- Scheduling, budgets and execution at the speed of business
- Full service team at your disposal
- Experienced expert surgical advice
- Full range of open, laparoscopic, robotic and endoscopic technologies
- Full range of imaging modalities
- *da Vinci*® Surgical Robot
- 6 Surgical operating stations
- 4 KARL STORZ endoscopic towers, complete with camera, light, and insufflation units
- 3 fully functional anesthesia stations

Drs. Landman and Clayman have helped develop novel and disruptive devices, as well as taught hundreds of educational courses with:

- Live animal, cadaver and fresh tissue capabilities
- Confidentiality- NDA available
- Multiple conference spaces (small and large groups) for up to 50 people
- American College of Surgeons Accreditation- Accredited Education Institute (since 2003)

“Our continuous collaboration with the UC Irvine Surgical Education Center has greatly contributed to the overall success of our many training and education initiatives. We are grateful to have access to their state-of-the-art facility and its technologies, as well as its knowledgeable staff, to help facilitate physician education, sales representative training, and specific product testing needs.”

Ryan Koontz, COOK MEDICAL

WE MAKE IT EASY!

We work with your budget and coordinate all aspects of the lab.
